Hot Properties in Spain are proud to present one of its most exclusive and strategically designed developments: a collection of tourist apartments located in the heart of what is already regarded as the finest resort on the Costa Cálida—Santa Rosalía Lake & Life Resort.

This ambitious real estate project has been designed to offer both investors and property owners an exceptional opportunity for profitability through tourist rentals, without sacrificing the opportunity to combine this with personal use, all within a premium environment experiencing high demand.

PROJECT OVERVIEW The development comprises five independent buildings, each with eight apartments distributed across four floors (two units per floor), for a total of 40 residential units. Additionally, there is a dedicated amenities and services building which will include a reception area, café, and fitness centre—offering a complete and professional service to both owners and guests. Situated on a plot of over 7,000 square meters, the buildings are set within a gated complex with controlled access and perimeter fencing, ensuring the security, privacy, and peace of mind of all residents.

The communal areas have been designed for maximum enjoyment and include Mediterranean gardens, swimming pools, a children's playground, and spacious parking areas. **THE ENVIRONMENT: SANTA ROSALIA LAKE & LIFE RESORT** Owners of these tourist apartments will not only benefit from the amenities of the development itself but also enjoy full access to the outstanding facilities of the Santa Rosalía Lake resort—a premium private environment featuring: A crystal-clear artificial lake, unique in Europe. Sports and leisure areas for all ages. A social club, dining options, and metaculously landscaped green spaces. 24-hour security and full resort maintenance.
